DV-Editor™

Capture, Edit and Share Digital Video

The Dazzle DV-Editor™ is the perfect accessory for your digital camcorder. Just connect your camcorder to the DV-Editor™ card with the supplied cable and you are ready to start capturing crystal clear DV video to your PC. Now unleash your creativity with a powerful but easy to use suite of Dazzle software. The DV-Editor™ includes Dazzle MovieStar 5™ for video editing, Dazzle DVD Complete™ for DVD designing and burning and Dazzle OnDVD™ for creating digital photo albums to play on your DVD player. The DV-Editor™ comes with 3 connection ports so even if you are using one for your camcorder, you still have two ports to connect other devices like a 1394 hard drive, CD burner or DVD burner.

Key Features

Capture DV Video

Connect your DV camcorder to capture high quality DV video to your PC. Dazzle MovieStar™ 5 contains special codecs to capture at the highest quality possible.

Easy but Powerful Video Editing

Dazzle® MovieStar™ 5 makes editing your video easy, but it doesn't leave out the powerful features you want. Cut unwanted scenes and add 3D transitions, titles and special effects. Add your favorite background music to set the mood or do a voice-over narration to explain important scenes. Use the storyboard or timeline interface for easy, yet professional video editing. MovieStar™ 5 has Background Rendering, Smart Rendering and Fast Rendering technology for superior speed and performance.

Author your own DVDs

With Dazzle DVD Complete™ it's easy to make DVDs like the ones designed in Hollywood movie studios. The DVD Complete™ project wizard guides you through the five simple steps to go from camcorder to DVD. All you need to know is what you like and DVD Complete will do the rest.

Create Digital Photo Albums

Digital cameras allow you to take an unlimited number of photographs that quickly pile up on your computer. With Dazzle OnDVD™, you can take your digital pictures and turn them into photo albums for your DVD player! OnDVD™ makes it simple to turn digital memories into home entertainment!

Dazzle Webcast Theater™

MovieStar™ 5 lets you make Real Media™ or Windows® Media internet-ready streaming videos. Then upload them for free to the Dazzle Webcasting site to share streaming video across the internet.

Dazzle® MovieStar™ 5 Easy but Powerful Video Editing

MovieStar™ 5

Dazzle MovieStar 5™ makes capturing, editing and sharing your video easy, but it doesn't leave out the powerful features you want. Cut out unwanted scenes, add 3D titles, transitions, background music, voice-over narrations and special effects. With MovieStar 5's custom video codecs, you always get the best video quality possible.

Dazzle® DVD Complete™ DVD Authoring and Burning Software

With DVD Complete™, it's easy to make DVDs like the ones designed in Hollywood movie studios. DVD Complete's project wizard guides you through the five simple steps to go from camcorder to DVD. All you need to know is what you like and DVD Complete will do the rest.

Dazzle® OnDVD™ Digital Photo Album Creation Software

Take your digital pictures and turn them into photo albums! Use OnDVD™ to create digital photo albums to be played on your DVD player. OnDVD™ makes it easy to turn digital memories into home entertainment!

Burn CDs and DVDs

Make DVDs, Video CDs, S-Video CDs or backup CDs with all your video footage and digital slide shows. CD/DVD Burner Required.

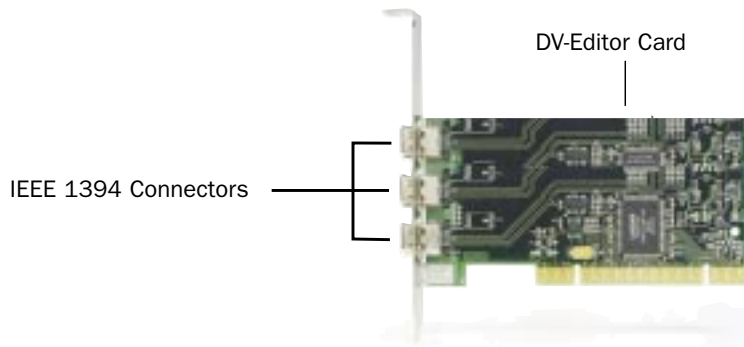

Output to Tape

After you edit your movies, record them back to DV video tape for viewing and archiving.

Webcast Video

Free membership to the Dazzle Webcast Theater™. Post your videos and photo slideshows then stream them across the Internet to family and friends.
