

summary

The two DVD players, KiSS DP-1504 and KiSS DP-1508 are based on the Slim Line DivX® Compatible DVD Player KiSS DP-1500 with its built-in Ethernet Port and its

PC Card Slot. These features enable these players, if connected to a Broadband Internet Connection to read Audio/Video/Picture content straight from a PC with the KiSS PC-Link Software as well as playing Internet Radio Station with WebRadio. WebRadio, with its friendly interface provides the user with a few thousands radio stations to choose from. The PC Card Slot placed at the back of the player,

also adds a new feature: Wireless Connection. No more ethernet cables in the way, thanks to a simple setup on the player. KiSS provides the Access Point and PC Card (IEEE 802.11b) as extra accessories. The difference between these players resides in the Hard Disk where the KiSS DP-1504 comes with a 40GB Hard Disk and the KiSS DP-1508 comes with a 80GB Hard Disk. Having a hard Disk on

the player will enable the user to store Audio/Video/Picture content on the DVD Player, up to 58 good quality DivX® Films for the KiSS DP-1504 and up to 117 good quality DivX® Films for the KiSS DP-1508. The KiSS DP-1504/08 players also comes complete with the standard CD/MP3, Ogg Vorbis, DivX®, XviD, Jpeg, CD-RW and DVD+-RW playback.

DVD Players with Ethernet/Wireless and 40/80GB HDD

KiSS DP-1504/08

front and back

watch out for

HARD DISK

The KiSS DP-1504/08 players enables the user to store any audio/video/picture content on his Player thanks to the Hard Disk (40GB on the DP-1504 and 80GB on the DP-1508) included in the Player. All these files are easily accessible through a User Friendly list displayed on the TV screen while the file transfer will be done on the Player from a list provided by KiSS PC-Link or from the player's drive.

ETHERNET AND WIRELESS CONNECTION

The big new feature with the KiSS DP-1504/08 players is the ethernet connection found on its back as well as a PC card Slot for Wireless Connection, Access Point and PC Card available as accessories. Connected to a Broadband Internet connection it will enable your DVD player to read files (movies, pictures or music) straight from your PC, as well as listen to Internet radio.

WEBRADIO

Thanks to its ethernet/wireless connection, the DP-1504/08 players is the only player on the market to provide users with a direct connection to the Internet. This internet connection enables the KiSS DP-1504/08 players to play internet radio. Just select this feature on the Player, and you will have access to a few thousand radio stations that can be streamed and played on the DP-1504/08 players.

KISS PC-LINK

KiSS PC-Link is a software that enables the KiSS DP-1504/08 players' user to play music, see pictures and view movies from a PC to the DivX compatible DVD player thanks to the ethernet connection found on the back of the player. KiSS PC-Link is a user-friendly software to install on a PC running at least Windows 98, it easy to select any media files on a PC's hard disk.

BEST EVER DivX® COMPATIBILITY

KiSS DVD players play all DivX format. DivX® 3.11, DivX® 4 and DivX® 5. What does this mean for you? It means that now, for the first time, you can download full-screen, full-motion videos from the Internet that actually look and sound like what you get from your television or DVD player. With DivX® compression, you can download and watch high-quality video on your TV.

FIRMWARE UPGRADABLE

KiSS is keen in keeping a special relation with its customers, so, even after a player has been sold, its software and technology keeps moving. The firmware of the player keeps updated with the latest research and development and KiSS is able to release a firmware update on a regular basis. This latest firmware is available from our web site in the support section.
